Re: The 18" SeaQuest Fish Pump

We have been using the 18" SeaQuest for the past six years.

It is our opinion, that there is nothing else in the market that can compare to it.

It has added 10-15% to the market value of our fish. There is no comparison in the quality of the fish since we have changed to a SeaQuest.

It is reliable for any fishing, fast and easily maintained.

We would have no hesitation in recommending a SeaQuest pump to anyone.
